

Certified Information
Systems Security Professional

Get the Premier Cybersecurity Certification

For experienced, high-achieving information security professionals

You live and work on the forefront of information security. Every day malicious hackers grow smarter. You always have to stay one step ahead to keep your company safe. Prove you have what it takes with the CISSP certification!

This cybersecurity certification is an elite way to demonstrate your knowledge, advance your career and become a member of a community of cybersecurity leaders. It shows you have all it takes to design, engineer, implement and run an information security program.

The CISSP is an objective measure of excellence. It's the most globally recognized standard of achievement in the industry. And this cybersecurity certification was the first information security credential to meet the strict conditions of ISO/IEC Standard 17024.

Are you up for the challenge? Start toward your CISSP destination today.

CISSP
IS THE
INDUSTRY
LEADING
CREDENTIAL

- » Security Architect
- » Network Architect

CISSP Average Annual Salary

\$126,770

- Certification Magazine 2016 Salary Survey

56%

of cyber jobs in the contracting industry require the CISSP.

- The Washington Post

Steps to Getting Certified

1

Get the Needed Experience

To qualify for the CISSP certification, you must have a minimum of five years cumulative, paid, full-time work experience in two or more of the **eight domains** of the CISSP Common Body of Knowledge (CBK):

- » Security and Risk Management
- » Asset Security
- » Security Engineering
- » Communications and Network Security
- » Identity and Access Management
- » Security Assessment and Testing
- » Security Operations
- » Software Development Security

Don't have the required work experience yet? You can take and pass the CISSP exam to earn an Associate of (ISC)² designation. Then, you'll have up to six years to earn your required work experience for the CISSP. See www.isc2.org/certifications/associate for more details.

2

Take Your Exam

Ready to schedule your exam? Visit our computer-based testing partner, www.pearsonvue.com/isc2, to set up your account. On your scheduled exam day, you'll have six hours to complete the 250 exam questions. You must pass the exam with a scaled score of 700 points or greater.

3

Complete the Endorsement Process

Once you successfully pass the exam, you will have nine months from the date of the exam to complete this process. See www.isc2.org/endorsement for more details.

4

Maintain Your Membership

Once you are certified, you become a member of (ISC)². **Recertification is required every three years.** This is accomplished through earning Continuing Professional Education (CPE) credits and paying an Annual Maintenance Fee (AMF).
